

Respina UltraVac V

Premium mineral vacuum pump oils

Description

Respina UltraVac oils are premium lubricant, blended from specific high quality mineral oil with low volatility characteristics, for the lubrication of vacuum pumps. These oils are especially formulated for use in vacuum pumps where they will tolerate exposure to very high vacuums with low levels of evaporation.

Specification and Approvals:

- ISO 6743-3A DVC

Advantages & Benefits

- Engineered to maintain viscosity at higher running temperatures
- Excellent cold temperature properties for easier starting
- Quality tested for minimal moisture content
- Good air release properties to provide efficient pump operation
